

HOLUBAR KIT CATALOG

Sew Yourself Into Good Times
And Easy Wear

INFORMATION

EACH KIT IS READY FOR ASSEMBLY . . .

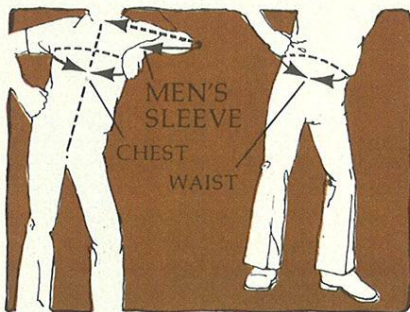

Your kit includes pre-cut fabric components, easy-to-follow direction sheets and all notions . . . all you need is a sewing machine, scissors and pins!

RUGGED CONSTRUCTION

. . . These kits are designed for action so you'll discover they go together with extra strength seam construction, with no raw edges for a fine tailored appearance. All stress points feature reinforced stitching. Remember that you control the quality of each sewing step to assure yourself of a rugged, well built kit.

BE CREATIVE . . . ADD A PERSONAL TOUCH!

All Holubar Kits are ideal for adding custom modifications. See page 31. The western shirt style kits and denim style shirt kits feature yokes that you can personalize with your own creative needs . . . we've even included illustrations of a few yoke designs to stir your imagination.

SIZING INFORMATION

Adult Sizing: Women's sizes are smaller cuts of the same pattern as the men's sizes with slight modifications.

WOMEN'S:	SIZE:	MEN'S:
6-8	XXS	—
8-10	XS	—
12-14	S	34-36
16-18	M	38-40
—	L	42-44
—	XL	46-48

SLEEVE LENGTH: 30", 31", 32", 33", 34", 35". Please indicate your size on the Order Blank in terms of XXS, XS, etc. If you should have any questions on sizing, please furnish the appropriate information as outlined below (in addition to your size indication on the order blank) and we will verify your size selection.

MEN: Please send height, sport coat size, sleeve length and weight.

WOMEN: Please send height, bust, dress size, and weight.

GOOSE DOWN FACTS

Goose Down is still the most versatile and efficient insulation for backpacking clothing. It provides the ultimate in warmth for its weight; breathes away body moisture to prevent a chilling effect, and it packs into a very small size.

Goose Down also has the inherent ability to "spring back" quickly after being compressed to give you an efficient insulating thickness. The life of this resiliency is directly related to the quality of the Goose Down.

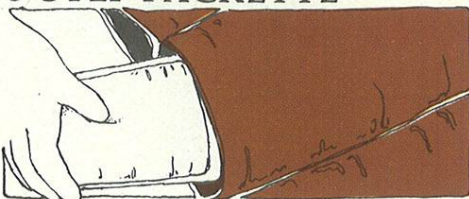

As you shop, you should be aware that certain Federal regulations must be met in order to label a product as containing "Goose Down." The mixture must first contain a minimum of 80% Down and 90% of the mixture must be Goose plumage (Down/feathers). The remainder can be made up of down fibre, feather fibre and small feathers. The high cost of Goose Down has forced some manufacturers to minimize their costs. Every batch of Holubar Goose Down has been tested to verify that we meet all the Federal regulations for "Goose Down" labeling. Our Goose Down also has a minimum filling power of 550 cubic inches per ounce of Goose Down. In most cases, the true identity of the insulation really depends on the integrity of the manufacturer.

You can depend on Holubar for high quality Goose Down garments and sleeping bags in both Handcrafted by Holubar and easy Sew-It-Yourself Kits.

ACTIVE TEMPERATURE

These are conservative ratings for active individuals but will vary from individual to individual due to various factors that affect an individual's response to cold, such as: your physical condition, rate of metabolism, type of food eaten on your outing, altitude, wind chill factor and clothing worn under or over our garments.

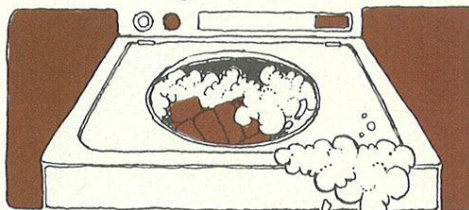

3-STEP PACKETTE*

FILL IT Holubar's patented Goose Down "PACKETTES"* are the finest of the "at home" Goose Down-filling methods. The completely sealed and pre-measured water-soluble Poly-Vinyl Alcohol containers are inserted, unopened, into your Goose Down garment. After completely sewing the channel shut, they are popped open, distributing just the right amount of Goose Down per channel, leaving no mess on the floor! *U.S. Patent No. Re 29,059.

NO MESS After the "PACKETTES" have been inserted, and completely sewn shut in the proper channels, grasp each end firmly, gather a bit of fabric around the "PACKETTE" to afford maximum flexibility and "pull" the film apart. The Goose Down will release and can be patted into place. When separated into a few pieces the film cannot be distinguished from the Goose Down through feel and will completely dissolve when the garment receives its first laundering.

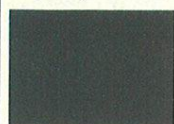

WASH IT Holubar Sew-It-Yourself Kits launder as readily as any fine Goose Down garment. Remember to presoak well in warm water, wash on gentle cycle, rinse WELL, and dry on WARM setting. Between dry cycles, remove garment, pull the damp clumps of Goose Down apart, and reverse garment (inside-out) with zipper partially zipped (to protect the large metal zipper sliders). With a minimum of care, your kit will always look and perform like new!

VESTS

Warm Investments For People On The Go

JUNIPER SLEEVES You can sew them in one evening. New Juniper sleeves attach to your vest with VELCRO® (both mating parts included in the sleeve kit) to give you the option of a Goose Down sweater or quick conversion back to a vest. On the trail, these lightweight sleeves store easily in a pocket or your pack. Available in all seven Juniper Vest colors. Match your vest or try a colorful contrasting combination. Sleeves feature an adjustable girth cuff. State your vest size. XXS, XS, S, M, L, XL.

JUNIPER VEST Save over 40% on the Juniper Vest Sew-It-Yourself Kit. You'll be amazed at the ease of construction with pre-cut components, pre-set snaps, all notions and illustrated direction sheets.

Backpacking, skiing, fishing or just around town, our Juniper Goose Down Vest gives you lightweight protection from the cold. Goose Down is the lightest, most efficient insulation known and our Juniper Vest, in medium size, has 4½ ounces of 550 cubic inch fill. The higher shirt style collar sets ours apart from traditional vest design. And we've designed it with Goose Down

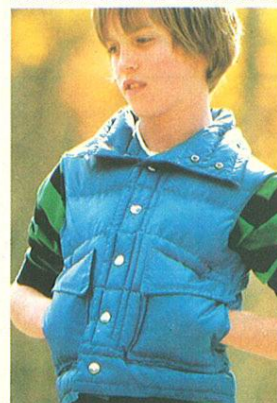

insulated handwarmer pockets under the roomy VELCRO® closure storage pockets.

Durable 1.9 ounce Ripstop shell with snap front. Plenty of length to protect sensitive kidney area. Active temperature*: 30°F. COLORS: Royal Blue, Kelly Green, Bright Gold, Burgundy, Navy, Forest Green, Copper. WOMEN'S: XXS(6-8); XS(8-10); S(12-14). MEN'S: S(34-36); M(38-40); L(42-44); XL(46-48)

*See page 2 for description.

#1166: Sew-It-Yourself Kit (5 oz.) .. \$14.50

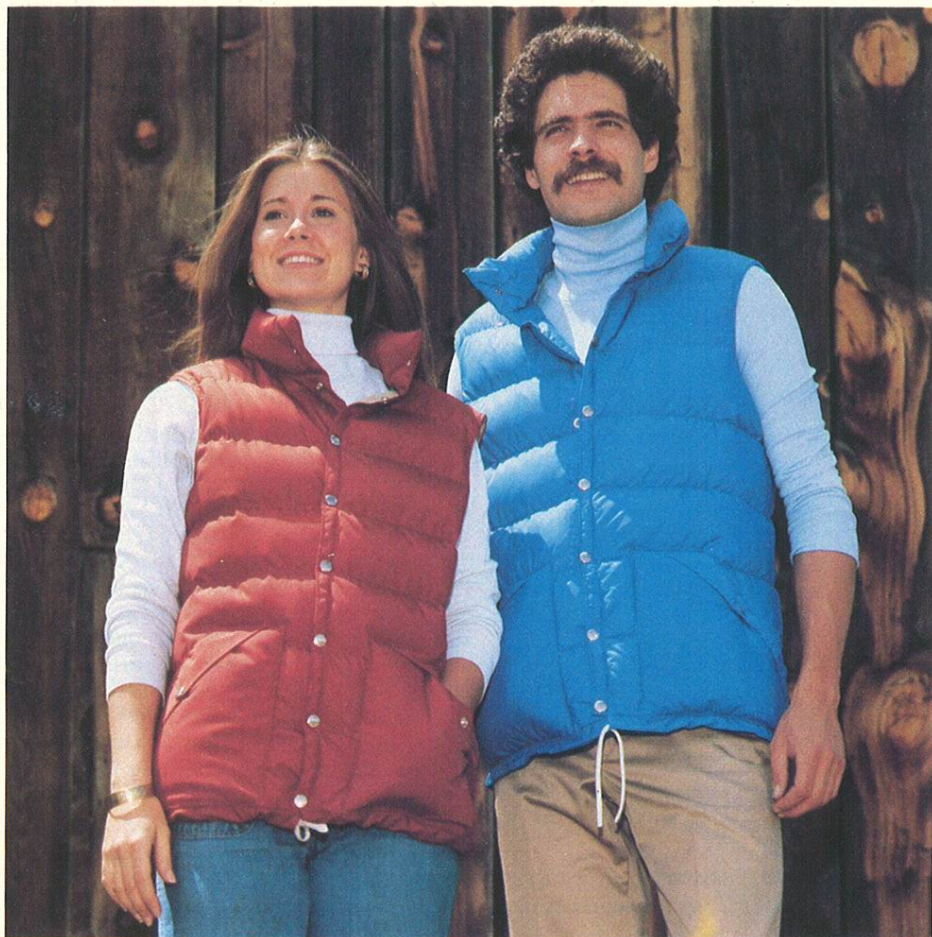

See the Junior Juniper Vest on page 30 along with other junior clothing.

Dressed to take it all day long.

Warmer Yet

DEEP POWDER VEST Save over 30% on the Deep Powder Sew-It-Yourself Kit. A very easy to complete kit, it features pre-cut components, pre-set snaps, illustrated direction sheets and all notions (even thread). It's fun to complete and you save money.

Down vests give you lightweight Goose Down warmth, freedom of movement, and the versatility of wearing them alone or under another garment such as our Yosemite parka. Our jacket-length Deep Powder vest has a snap front, Goose Down insulated handwarmer pockets, and a Goose Down stand-up collar — all practical outer wear features.

You have your choice of two outer shell fabrics, Storm Cloth or Supernyl. Storm Cloth gives you extra protection against abrasion and washes beautifully. Supernyl has a dressier, handsome finish.

The quilted channels are only four inches wide so they can hold the Goose Down at a more efficient insulating thickness. And you'll receive extra dollar value with our generous Goose Down fill weights (5½ ounces of 550 cubic inch fill Goose Down - size medium)! Active temperature: 25°F. See page 2 for description.

STORM CLOTH COLORS: Rust w/Tan lining; Navy w/Red lining; Denim Blue w/Navy lining; Tan w/Navy lining. **SUPERNYL COLORS:** Copper, Forest Green, Navy, Royal Blue. **WOMEN'S:** XS(8-10); S(12-14); M(16-18). **MEN'S:** S(34-36); M(38-40); L(42-44); XL(46-48).

#0168: Handcrafted by Holubar Supernyl (15 oz.) **\$42.50**

#0169: Handcrafted by Holubar. Storm Cloth (1 lb. 4 oz.) ... **\$48.50**

#1162: Sew-It-Yourself Kit. Supernyl (15 oz.) **\$28.50**

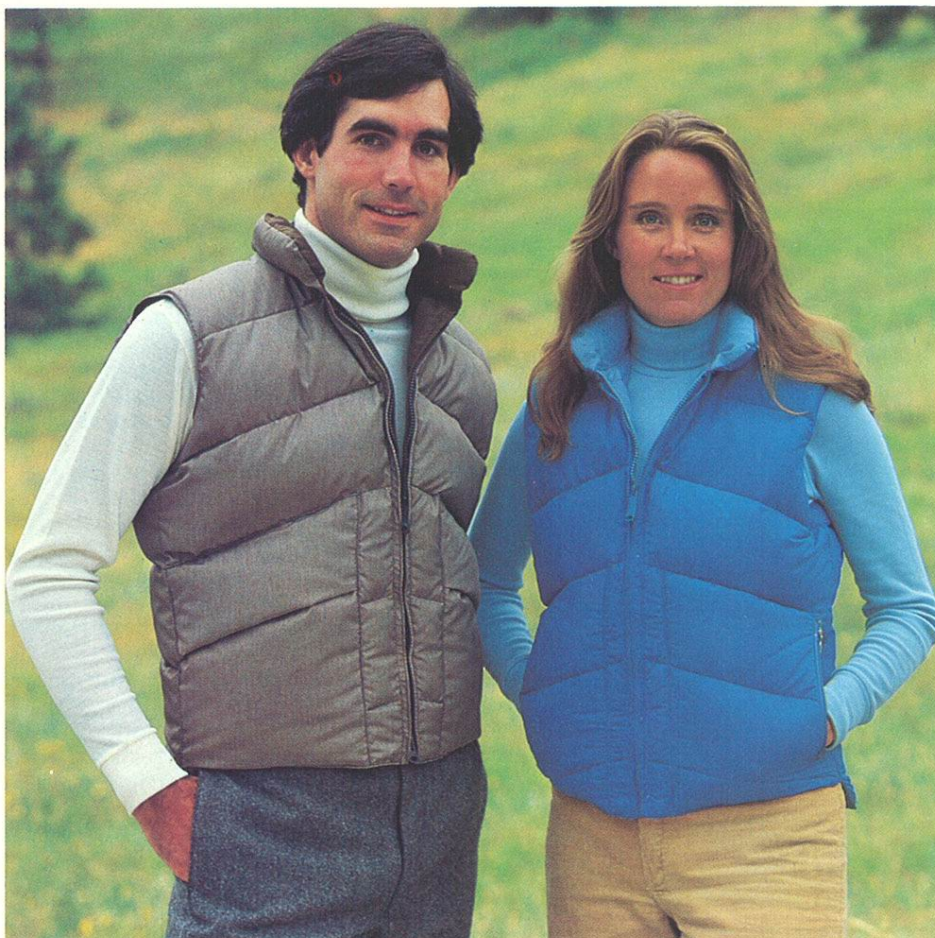

#1163: Sew-It-Yourself Kit Storm Cloth (1 lb. 4 oz.) ... **\$32.50**

- Choice of two outer shells; Storm Cloth or Supernyl
- Reinforced stitching (Bar Tacks) at pocket stress points
- Bottom hemline drawstring shuts out drafts
- Comfortable stand-up Goose Down collar
- All inside seams finished for added durability
- 5½ oz. Goose Down (size medium)
- Goose Down insulated pockets with easy slant entry. Snap closure flap. (No snap on kit version).

(A Handcrafted by Holubar model shown)

A Double Value

GEMINI VEST Save 33% by sewing your own vest. The Gemini Vest reverses to give you a choice of two colors with the comfortable warmth of Goose Down.

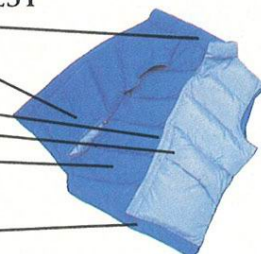

Double your dollar value with this 2-in-1 Goose Down vest that offers the rugged fabrics; texturized nylon Tasmania cloth on one side with two zippered pockets, and Frostpoint nylon with handwarmer pockets on the reverse side.

The Gemini is a rugged, functional garment for cross country skiing, hunting, outdoor construction or wear around town. Zipper front closure. COLORS: Tan/Brown; Blue/Royal Blue; Green/Green. WOMEN'S: XXS(6-8); XS(8-10); S(12-14). MEN'S: S(34-36); M(38-40); L(42-44); XL(46-48).

#0182: Handcrafted by Holubar
(14 oz.) \$45.00
#1170: Sew-It-Yourself Kit (14 oz.) \$30.00

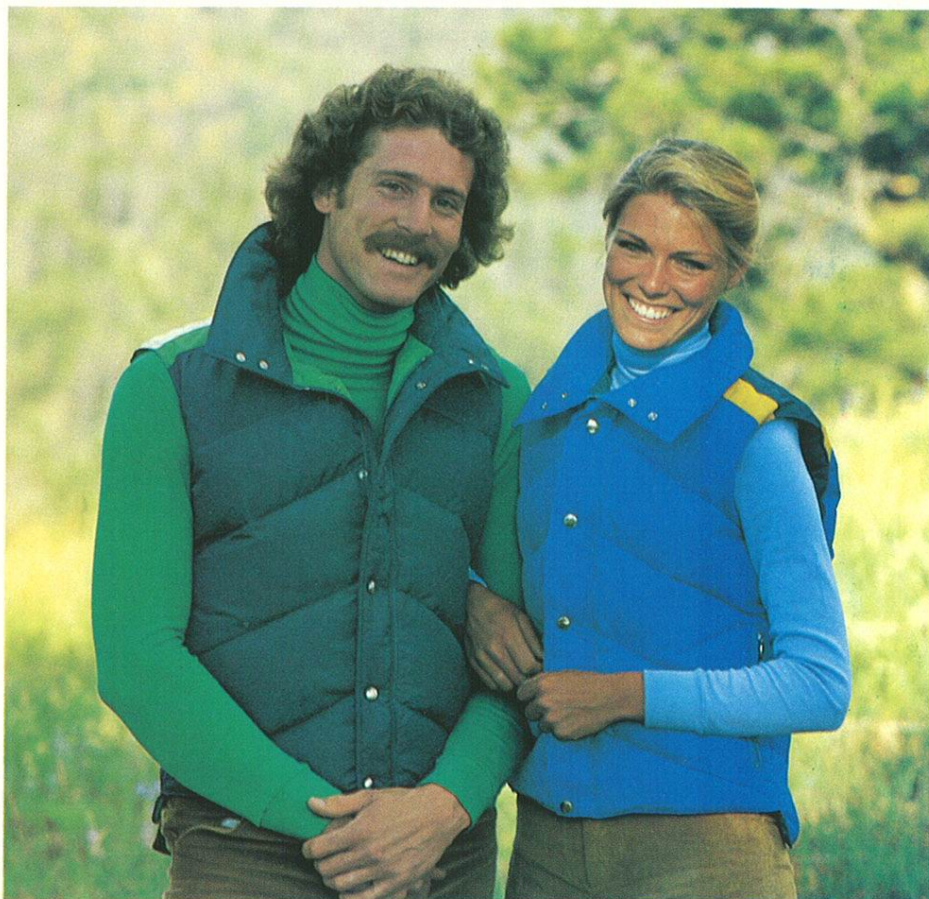

GEMINI VEST

- Low collar, preferred by many.
- Access to pockets from both sides through zippered closures.
- #5 YKK zipper (no storm flap).
- Chevron quilting for stylishness.
- Reversible from "frostpoint" on one side to "taslinized nylon" on the other.
- Kidney warmer at back.

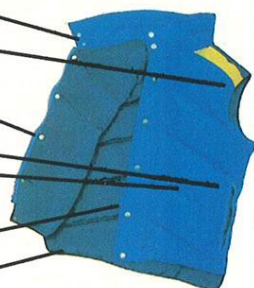

"I sewed a Juniper Vest in my "bachelor survival" class. I never thought it would be so easy, or so fun. It was the best way to learn how to sew that I know. Will you put me on your mailing list? Thank you." Jim Klein, New Jersey

High Style

STINGER VEST:

- High collar for warmth and styling.
- Contrasting lining and shoulder epaulets.
- #5 YKK zipper with snap storm flap.
- Zippered handwarmer pockets.
- Chevron quilting (makes vest more stylish than previous model).
- Constructed entirely of Antron nylon.
- Extends low in the back for "kidney warmer."

STINGER VEST Save over 35% by sewing your own. Stinger Vest combines a fashionable chevron pattern, accented by a contrasting bi-color yoke, and rugged Holubar construction techniques.

Trim chevron styling sets an over-all appearance of motion that complements an active, on-the-go lifestyle. Whether you're alpine skiing or enjoying the quiet solitude of cross-country, the Stinger will give you the high quality performance of Goose Down warmth, along with a comfortable, non-restricting fit.

Special cold weather features include: A zippered front closure protected against the elements by a snap draft flap; high snap collar designed to give maximum facial protection without hindering head movement; zippered handwarmer pockets and inside pocket with VELCRO® closure and long tail flap to insulate the kidney area.

The shell material is a handsome finished, Super Antron, a quite durable and Downproof nylon.

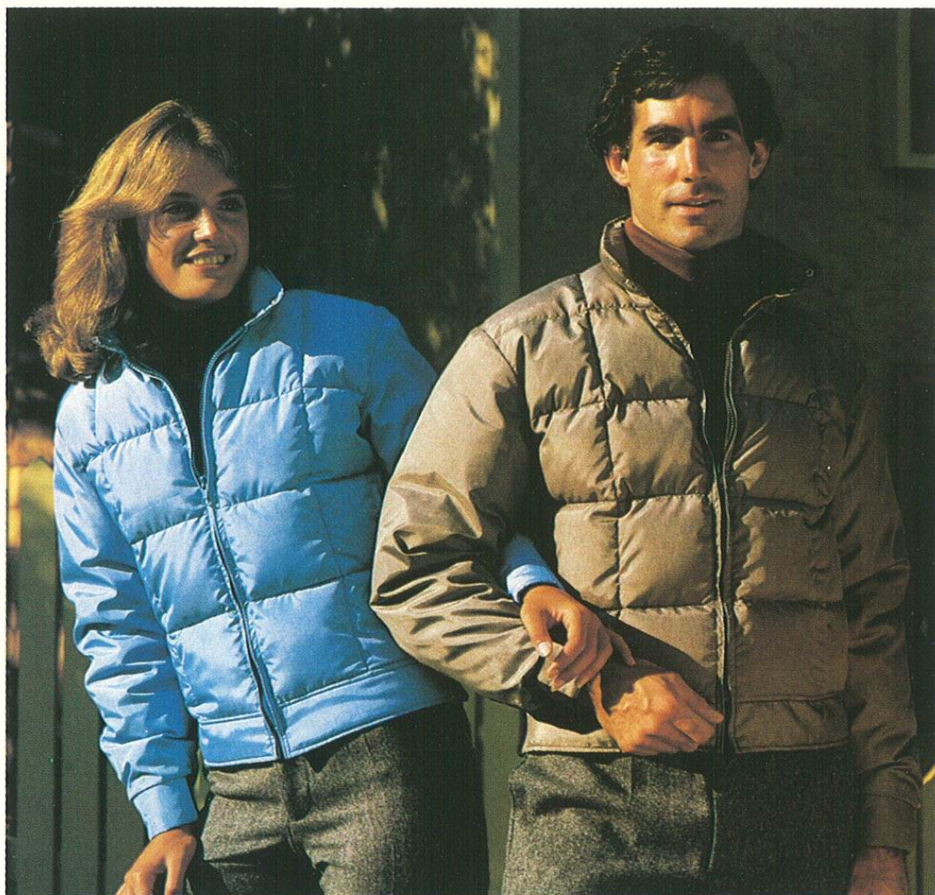

The Stinger offers a fresh new addition to our high performance, cold weather clothing line that meets the needs of today's on-the-go lifestyles.

COLORS: Navy with Kelly Green/Bone Yoke; Royal Blue with Gold/Navy Yoke; Brown with Rust/Bone Yoke. **WOMEN'S:** XXS(6-8); XS(8-10); S(12-14). **MEN'S:** S(34-36); M(38-40); L(42-44); XL(46-48).

#0183: Handcrafted by Holubar (14 oz.) **\$55.00**
#1171: Sew-It-Yourself Kit (14 oz.) **\$34.00**

JACKETS

For Action Or Leisure Activity

RUSTLER JACKET Save 40% when sewing your own Rustler Jacket. Rustler Jacket offers square quilt styling for men and women. A bold, classic look for wear in town or the mountains.

We've combined the traditional look of a square quilt style with a new brushed finished nylon to give you one of the best looking, lightweight jackets with all the warmth and comfort of Goose Down (size medium contains 6 oz. of 550 cu. in. fill Goose Down).

Designed with a jacket length for action activities.

The trim waist length style allows you non-restricted movement when hiking, biking or soaring at high altitude . . . just to name a few action activities that the Rustler can accommodate so ideally. It's classic look is also quite fashionable for leisure wear around town and the jacket length is convenient for getting in and out of your vehicle.

Features include two zippered outside pockets and a large inside pocket with VELCRO® closure; stretch nylon cuffs and back waist band; a stand-up collar with snap closure to shut out drafts and an easy running #5 coil front closure.

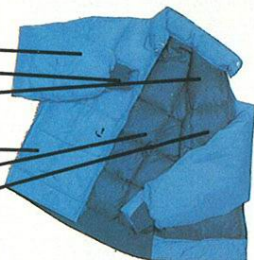

The high quality workmanship performed by a single seamstress and durable fabrics and accessories are combined to give you many years of cold weather protection without going out of fashion. Machine Washable. COLORS: Brown, Blue, Green. WOMEN'S: XXS(6-8); XS(8-10); S(12-14). MEN'S: S(34-36); M(38-40); L(42-44); XL(46-48).

#0185: Handcrafted by Holubar
(1 lb. 4 oz.) **\$60.00**

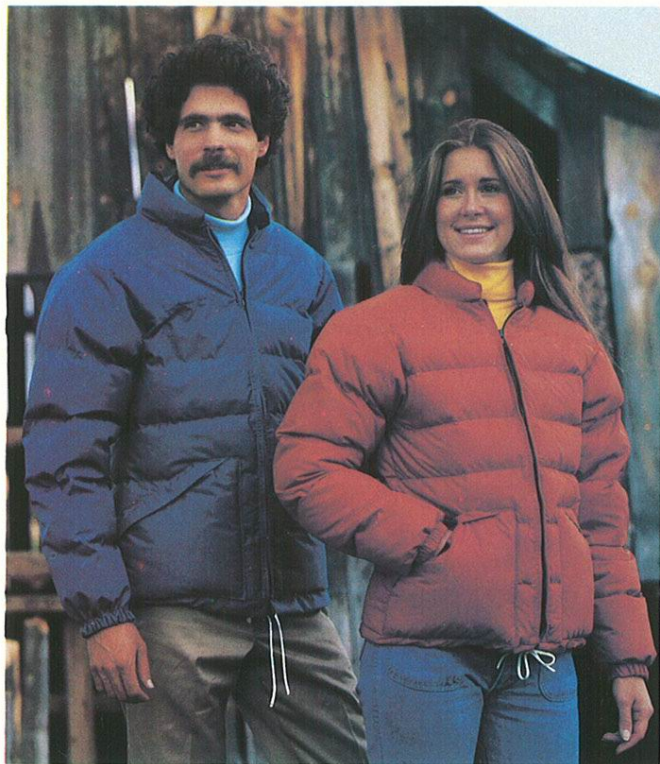

#1173: Sew-It-Yourself Kit
(1 lb. 4 oz.) **\$35.00**

RUSTLER JACKET

- Frostpoint outer fabric.
- Stretch knit cuffs and waistband.
- Stand-up collar with snap closure.
- 2 zippered closure side pockets.
- 5½ oz. of Goose Down (size medium).
- Contrasting inside lining.
- Roomy inside pocket with VELCRO® closure.

Maximum Comfort

TRAIL JACKET Save over 30% on the Trail Jacket Sew-It-Yourself Kit. If you value freedom of movement, you'll appreciate the great mobility our Trail Jacket gives you for hiking, ski touring, fishing, or strenuous work in cold weather. The comfortable jacket-length keeps your upper body warm with heat-efficient Goose Down insulation (size medium contains 9½ oz. of 550 cubic inch Goose Down) held in place with quilted, single layer channels. A durable zipper front gives you a snug, draft-free fit. Goose Down insulated handwarmer pockets help keep hands warm. Patch pocket with VELCRO® closure flap, elastic cuffs, and hemline drawstring seal out the cold and wind for your maximum comfort in the coldest extremes. Active temperature*: 0°F. STORM CLOTH COLORS: Denim Blue, Navy, Rust. WOMEN'S: XXS(6-8); XS(8-10); S(12-14). MEN'S: S(34-36); M(38-40); L(42-44); XL(46-48). *See page 2 for description.

- Storm Cloth outer shell
- Storm Cloth model features contrasting color lining
- Easy slant entry Goose Down handwarmer pockets (Kit version features a Goose Down handwarmer pocket behind roomy, cargo pockets).
- Comfortable, stand-up Goose Down collar

- Shoulder seams are not sewn through eliminating cold spots
- #5 YKK VISLON front zipper with corded-edge for extra durability
- 9½ oz. of Goose Down (size medium)
- Elastic band at cuffs
- Bottom hemline drawstring shuts out drafts

(A Handcrafted by Holubar model shown.)

PARKAS

Rugged & Smart

VANCOUVER PARKA Save over 60% when you sew your own Vancouver Parka. Rugged Holubar construction accented by the distinctive good looks of wool plaid.

We've combined the time-tested mountain parka design by Alice and Roy Holubar with a bright wool plaid lining to give you one of the most rugged and smartest looking garments you can find for wear around town or in the mountains.

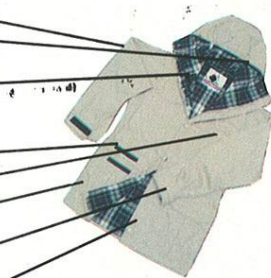

The wool plaid lining, a blend of 85% wool and 15% nylon for strength, adds the natural warmth and comfort of wool as well as a touch of classic accent styling.

The Storm Cloth outer shell, a blend of 65% Polyester and 35% Cotton, provides a rugged barrier to wind and will shed snow and light drizzles.

Cut for full action and comfort, the two smaller sizes are tailored especially for ladies, not just scaled down versions of the men's sizes. Four roomy patch pockets with VELCRO® closure allow plenty of handy storage space while the handwarmer pockets serve as comfortable arm rests. The smooth running #5 front zipper is protected by a snap draft flap and unzips from the bottom for extra freedom of movement. The wool lined hood snugs down around the face for protection against chilling winds . . . a handy feature at the stadium or in the mountains. VELCRO® adjustable cuffs and inside waist drawstring round out the features of this very versatile garment sewn by a single seamstress to give you handcrafted quality and assurance of a sound investment. **COLORS:** Tan with Green Plaid; Navy with Red Plaid; Rust with Tan Plaid. **WOMEN'S:** XXS(6-8); XS(8-10); S(12-14). **MEN'S:** S(34-36); M(38-40); L(42-44); XL(46-48).

VANCOUVER PARKA

- Rugged Storm Cloth outer shell.
- Adjustable Hood draws in closely to protect face.
- Lined throughout hood and body with wool plaid; sleeves lined with Supernyl.
- Inside waist drawstring.
- 4 patch pockets with VELCRO® closure.
- 2 handwarmer pockets.
- Gussetted cuff with VELCRO® adjustment.
- #5 YKK front zipper with snap draft flap.

"Instead of our regular project, our teacher let us sew your kits this year. Now I use my jacket a lot more than the project I did last time." Jean Harding, California

#0507: Handcrafted by Holubar
(1 lb. 15 oz.) **\$82.00**
#1603: Sew-It-Yourself Kit
(1 lb. 15 oz.) **\$37.00**

Popular & Practical

YOSEMITE PARKA Save up to \$45 on the Yosemite Sew-It-Yourself Kit. Please note the following design differences in the Kit model:

The kit is fully lined throughout the hood, body and sleeves with a wind-tight all nylon Supernyl fabric in place of the below mentioned Storm Cloth. VELCRO® closure draft flap instead of snaps. Two instead of three zippered pockets; back and right front. Kit version features a raglan sleeve design.

Our most popular wind parka. It was originally designed by Roy and Alice Holubar, who founded a business based on their love of the outdoors. Time, new and better fabrics, and the addition of three pockets have improved the Yosemite but Roy and Alice's classic design remains. You won't find more meticulously detailed sewing because this is not an assembly line garment. Each parka is individually sewn by a seamstress. We've matched the workmanship with the best fabrics and accessories available to make this a parka that's perfect for the mountains or around town.

The outer shell fabric is Storm Cloth, a blend of 65% Polyester and 35% Cotton, that gives you a tough barrier to wind and abrasion. It's been treated for water-repellency so that it sheds moisture. The Handcrafted by Holubar parka is lined from inside the hood to the waist with a second layer of Storm Cloth for double protection against wind and moisture. We know from experience that wind parkas are exposed to many elements that cause soiling and you'll love the easy care, machine washability of Storm Cloth.

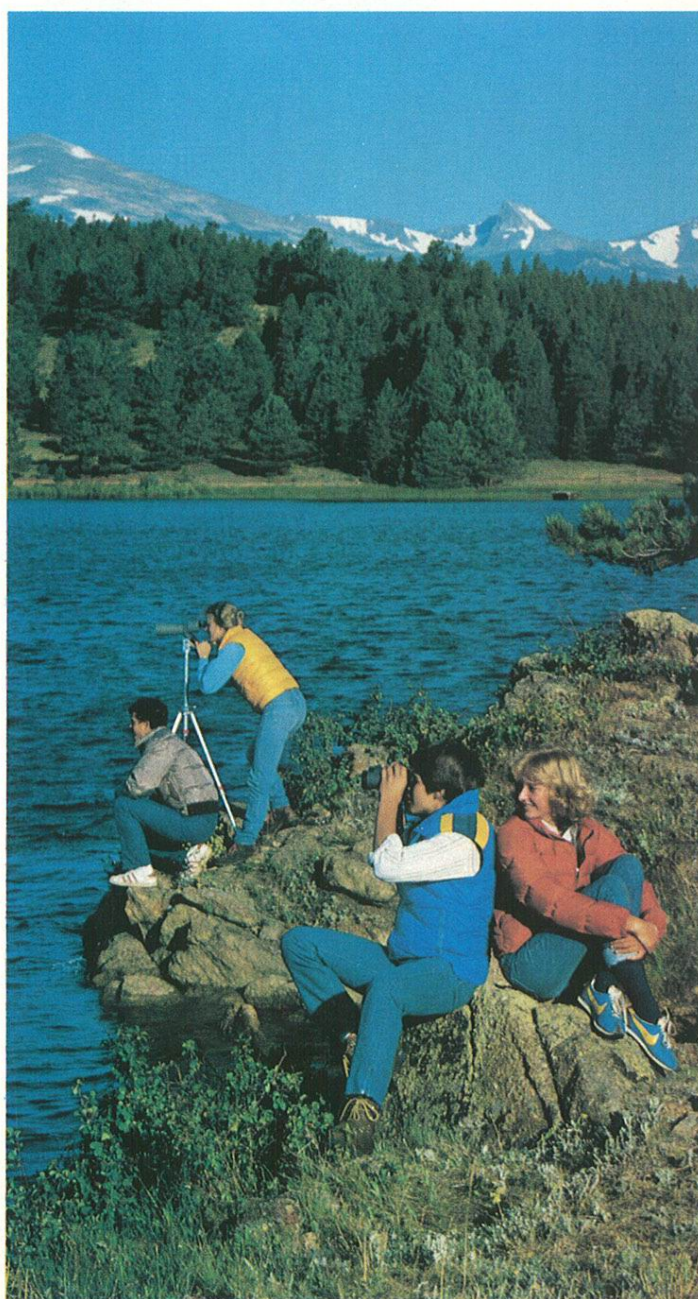

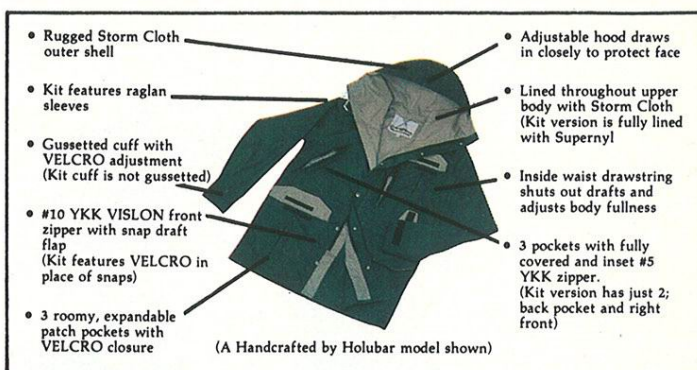

Alice's original parka zipper gave way to a more durable, easy running (even in freezing weather) #10 YKK VISLON zipper, protected by a snap draft-flap. The two-way slider system allows you to unzip from the bottom for ventilation or non-restricted movement.

The Yosemite has no less than eight pockets! Three large patch pockets are roomy and close with VELCRO® flaps. Three zippered pockets offer excellent security. One of two upper pockets has vertical entrance for easy storage of maps. The second has slant entrance for valuables. Back pocket is a handy storage area for a sweater. These pockets utilize #5 YKK VISLON zippers, inset and fully covered to protect against freezing. Cuff adjusts smaller by VELCRO® tab. Lined hood offers protection without obscuring vision. Adjustable inside waist drawstring shuts out drafts.

The Yosemite parka is unmatched in construction detail and quality workmanship. When you receive your parka, take a look at the inside and notice that all seams are finished for maximum garment strength . . . a touch of Roy and Alice's perfection. COLORS: Navy, Forest Green, Rust. All lined in Tan. WOMEN'S: XS(8-10); S(12-14); M(16-18). MEN'S: S(34-36); M(38-40); L(42-44); XL(46-48).

#0500: Handcrafted by Holubar (1 lb. 5 oz.) \$77.50
#1600: Sew-It-Yourself Kit (1 lb. 5 oz.) \$32.00

Sizing Note: This garment is cut full to fit over bulky down garments. If you plan to wear the YOSEMITE without bulky undergarments, order one size smaller in the Handcrafted by Holubar model and two sizes smaller in the Sew-It-Yourself Kit.

Photographed at Gold Lake Ranch, Colorado.

Geared for action.

Strength, Freedom, Durability

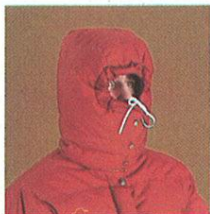

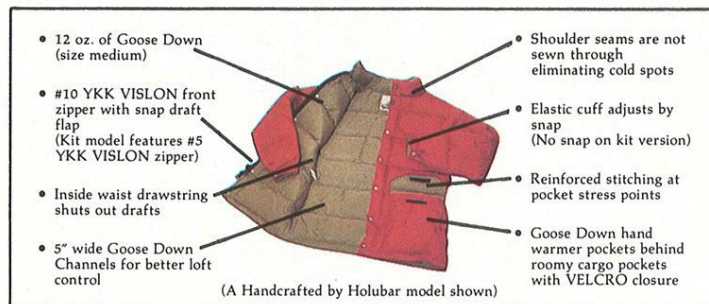

ASCENT PARKA Save over 35% on the Ascent Parka Sew-It-Yourself Kit. Our Ascent Parka is one of the finest examples of Roy and Alice Holubar's dedication to building strength, freedom and durability in outdoor clothing that can take whatever the weather demands.

The Ascent's 12 ounces of Goose Down (in our medium size) give you non-bulky warmth and actually "breathes" out body moisture to prevent chills. It's an ideal parka for cold windy afternoons at the football game or simply for any activity that exposes you to cold temperatures.

You choose from two outer fabrics, Storm Cloth or Supernyl. If you work outside or will be exposed to abrasive conditions we recommend our Storm Cloth, a blend of 65% Polyester/35% Cotton with tough, abrasion-resistant characteristics. For around town or campus we suggest Supernyl, a handsome finish nylon taffeta. Both are excellent parka fabrics.

Every detail of the Ascent is aimed at giving you an outstanding parka. The double pockets include a roomy, flap covered cargo pocket directly over the Goose Down insulated handwarmer pocket. There's an inside drawstring at the waist, stand-up collar and elastic cuffs to aid retention of body heat and keep cold air out. Additional heat loss protection is provided by a snap flap over the durable, two-way zipper, which can be unzipped from the bottom for ease of movement. A matching Goose Down hood can be purchased as an option. Active temperature*: -20°F. **STORM CLOTH COLORS:** Navy, Rust, Forest Green, Tan. **SUPERNYL COLORS:** Navy, Burgundy, Forest Green. **WOMEN'S:** XXS(6-8); XS(8-10); S(12-14). **MEN'S:** S(34-36); M(38-40); L(42-44); XL(46-48). *See page 2 for description.

OPTIONAL ASCENT PARKA HOOD In matching fabrics and colors.

- #1150: Sew-It-Yourself Kit Supernyl (1 lb. 15 oz.) \$56.75
- #1152: Sew-It-Yourself Kit Storm Cloth (2 lbs. 12 oz.) . \$64.00

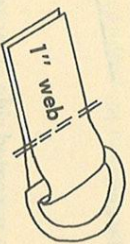

9. **Coated side of rectangle** out, place end with zipper on top of 1-1/4" folded end.

Align edge of zipper tape with raw edge of fold.

Stitch 1/4" from edge of zipper tape, and across both ends of zipper. (If you wish, pin this seam first to insure that both zipper tape and fabric come out even.)

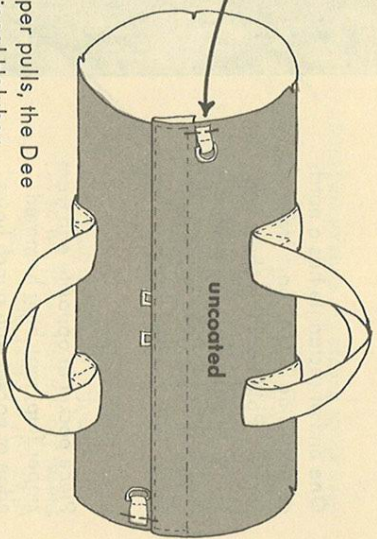

- h. Cut two 3" pieces of 1" nylon webbing. Burn all cut ends to prevent raveling. Thread each 3" piece through a Dee Ring. Fold web in half and stitch close to Dee Ring twice.

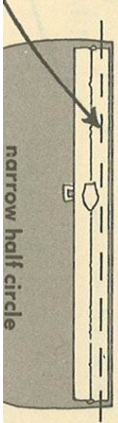

- i. Place a Dee Ring at each end of zipper — one on either side of flap as illustrated.

Stitch in place 1/4" from raw edge on the **uncoated side**.

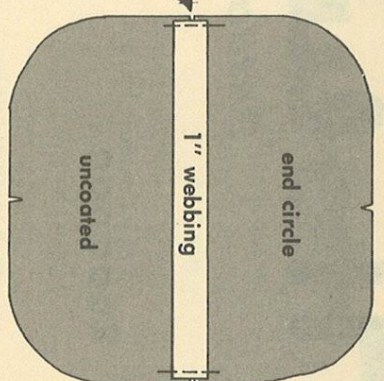

(In addition to functioning as zipper pulls, the Dee Rings may be used to attach optional Holubar shoulder strap.)

- j. With slider of short zipper toward **uncoated side**, match edge of zipper tape to straight edge of **narrow half circle**.

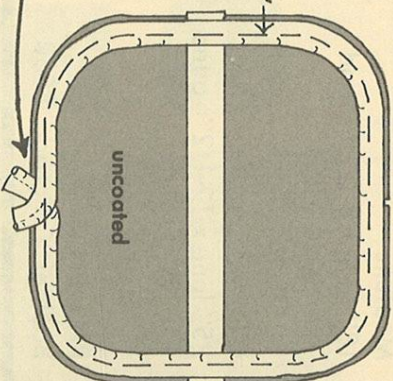

- o. Place other piece of 1" webbing from notch to notch across **uncoated side** of other end circle. Stitch 1/4" in across each end.

- p. Cut black corded tape in half. Place one piece of tape around edge of each **uncoated** end circle. Using a zipper foot, stitch as close to cord as possible. Stitch line should be 1/2" from raw edge of circle.

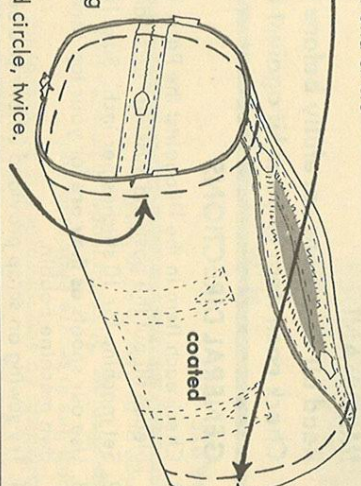

When beginning and ending stitching, angle raw ends of tape out of the seam line.

- q. **Uncoated sides** together, place each end circle to rectangle, matching notches.

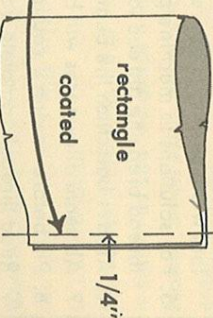

Note: Be sure handle webbing goes across bag from notch to notch, not from zipper to notch. Also be sure that zipper flap on one end circle faces down.

Stitch over previous cording stitching on each end, continuing to use zipper foot. Stitch around each end circle, twice.

UNIT 2 INSIDE POCKET (lightweight fabric)

- a. **Uncoated sides** together, bring short ends of light fabric rectangle together. Stitch 1/4" in from short ends.

- b. Turn rectangle, **uncoated side** out.

Holubar

Outdoor Equipment Kits

Roadbag

Medium

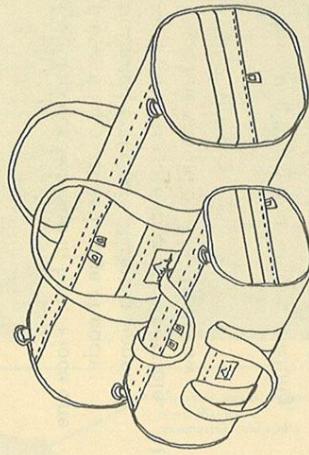

18" long x 8-1/2" round

Large

25" long x 12-1/2" round

P. O. Box 7

Boulder, Colorado 80302

IMPORTANT

Read all directions carefully before beginning.
Check each item in your kit against the Parts List.

GENERAL DIRECTIONS

1. Check each item in the kit against the Parts List. If any parts are missing, please fill out the postpaid Missing Parts Form and mail to Holubar.
2. Set machine for 10 stitches per inch. Size 16 needle is suggested.
3. Use our spools as they are for your top thread. Rewind thread onto your own machine bobbin.
4. Try sewing on scrap provided before you begin the kit. Machine tension may have to be adjusted for sewing on nylon to prevent seam pucker. It is also advisable to hold (don't pull) the fabric tight in front and behind the presser foot while sewing to prevent the stitching from puckering the cloth.
5. For solutions to machine problems such as -- skipped stitches, needle or bobbin thread breaking, thread looping or tangling -- see your machine manual.
6. Always backstitch the beginning and ending of every seam.
7. All seam allowances will be 1/2" unless otherwise specified.
8. Pin before sewing if you feel it will help you.
9. Read through complete Sewing Directions to get a general idea of the construction.

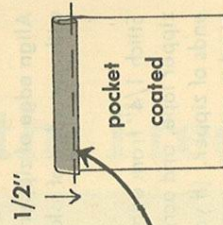

SEWING DIRECTIONS

Seal edges of each nylon piece, using a candle. Practice on scrap first. Melt only the extreme outer edge so as not to alter the dimensions of each part. The benefits derived from searing more than compensate for the time invested.

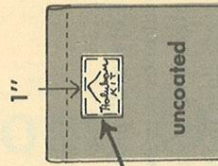

UNIT 1

BAG (Heavy Fabric)

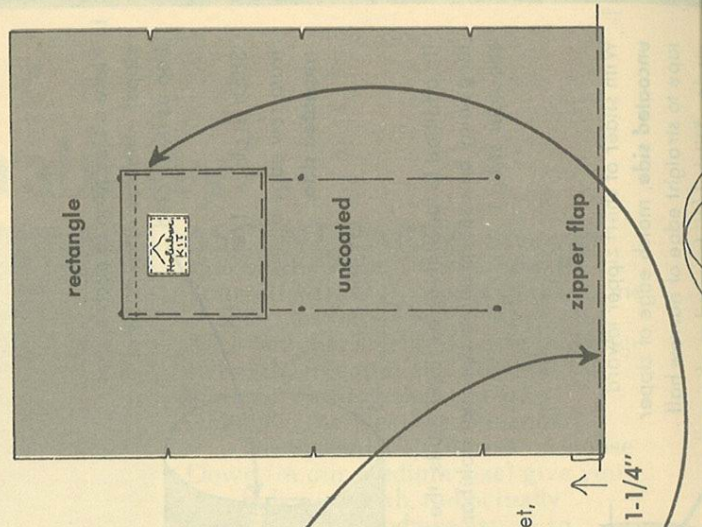

- a. **Coated side** up, fold one short end of pocket over 1/2", and again 1/2". Stitch close to folded edge.

- b. On **uncoated side** of pocket, center Holubar Kit label 1" down from top edge. Stitch around all sides.

- c. On **uncoated side** of large rectangle, draw two lines connecting each of the two sets of three punch holes.

One end of rectangle has a notch on each side 1-1/4" back from corner. Fold back this short end 1-1/4" at notches to the **coated side**, and stitch close to the folded edge. (This creates a zipper flap.)

Place pocket at opposite end from zipper flap, matching hemmed edge of pocket with punch holes at end of drawn lines. Stitch close to edge around three sides of pocket, folding lower edge under 1/2", but leaving side edges extended beyond drawn line.

TERMS

Coated: Side of material with urethane covering. (Fills the pores and often dulls the fabric's luster.) This lays to the **inside** of Roadbag, and is shown as **white areas** in illustrations.

Uncoated: Finished side of material which will be to the **outside** of Roadbag, and is shown as **shaded areas** in the illustrations.

Notch: Small cut in edge of fabric, used to mark placement of pieces and match seams.

Punch Mark: Small hole punched in material to mark placement of pieces.

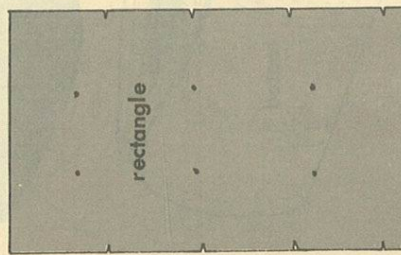

Stitching Line: Marked with broken lines in illustrations.

Backstitch: To sew forwards and backwards for 1/4" at beginning and ending of stitch line to secure ends of thread.

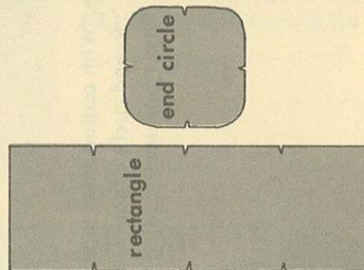

Top-stitching: Stitching made on finished side of Roadbag, usually close to the edge or as described in the directions.

PARTS LIST

Heavy Fabric

Lightweight Fabric (for inside pocket)

1 long nylon coil zipper
(with 2 sliders)

1 short nylon coil zipper
(with 1 slider)

1" nylon webbing piece

2" nylon webbing piece

2 Dee Rings

Black Corded Tape

Holubar Kit Label

Thread

Scrap of heavy fabric

Scrap of light fabric

Note: Both zippers have no end stops. Be **very careful** not to allow zipper sliders to come off ends. Both ends of zippers should come to you closed. If they do separate they can be remeshed by hand.

Turn cut ends of 2" nylon webbing piece to prevent ravelling.

Fold webbing in half to find center. Match center edge of webbing with center of one drawn line.

Overlap cut ends of webbing 1/4" at center of other drawn line.

Note: Do not twist webbing as you bring it around from first stitched side.

Stitch 1/8" in around webbing between punch holes at each end of drawn line. (Raw edge of side pocket will be covered.)

Also stitch across cut ends of webbing.

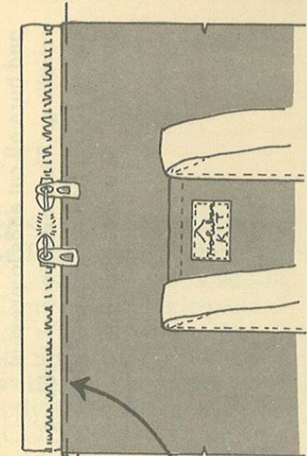

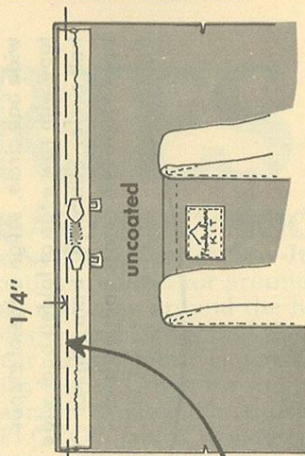

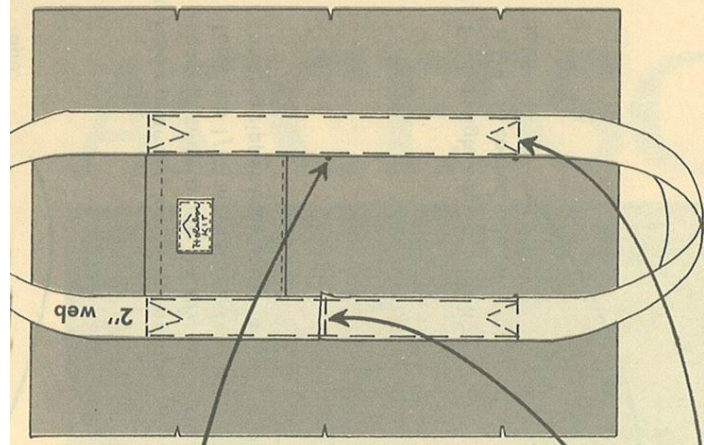

Stitch a reinforcing triangle twice at each end of webbing stitching.

e. With slides of long zipper toward **uncoated side**, match edge of zipper tape to short end of rectangle above pocket.

Stitch 1/4" from edge of zipper tape.

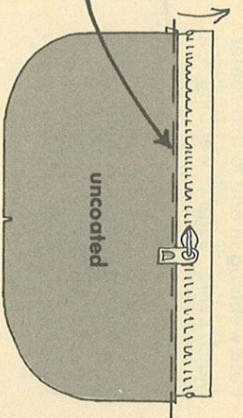

f. Fold zipper out, laying zipper tape and seam allowance onto rectangle.

Top-stitch 1/8" in from edge of zipper, catching zipper tape underneath.

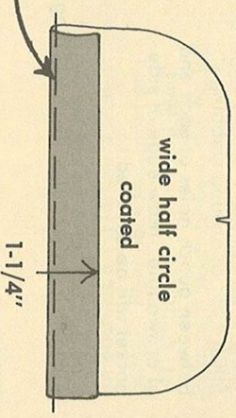

tape.

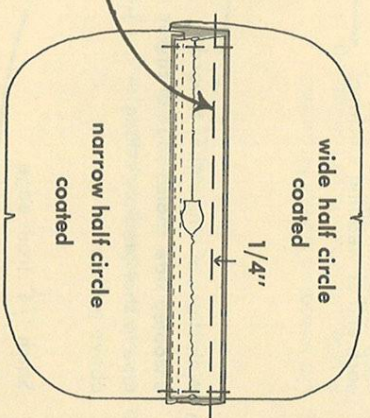

- k. Fold zipper out, laying zipper tape and seam allowance onto narrow half circle. Top-stitch $1/8"$ in from edge of zipper, catching zipper tape underneath.

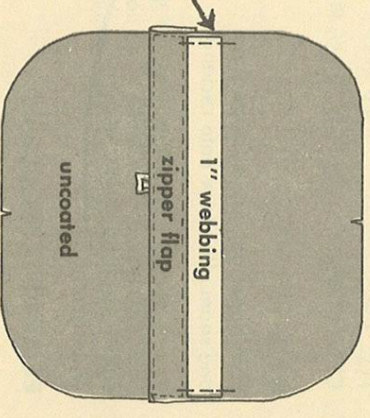

- l. Fold straight edge of wide half circle $1-1/4"$ to coated side and stitch next to fold.

- m. Place narrow half circle with zipper, coated side up, on top of folded edge of wide half circle. Align edge of zipper tape with raw edge of folded back wide half circle. Stitch $1/4"$ from edge of zipper tape and across both ends of zipper.

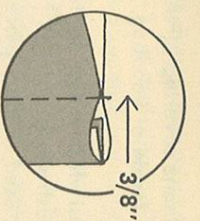

- n. Cut remaining 1" nylon webbing in half and burn all cut ends to prevent ravelling. Place one piece of webbing above zipper flap on uncoated side. Stitch $1/4"$ in across each end.

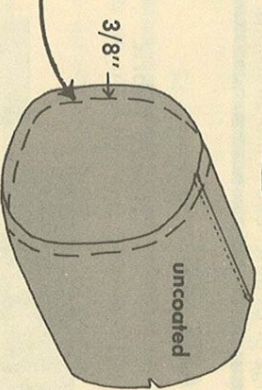

stitch 3/8" in from previous stitching.

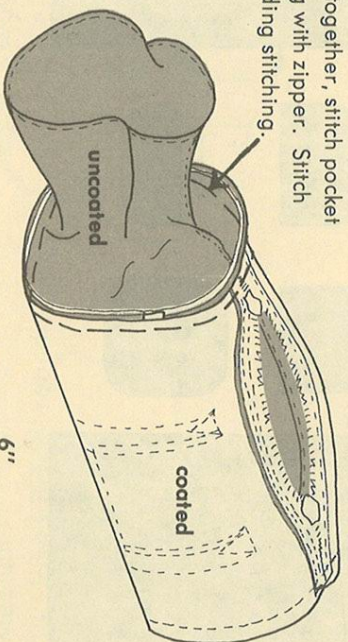

- c. Uncoated sides together, stitch end circle to rectangle, matching notches. ($1/4"$ seam allowance.)

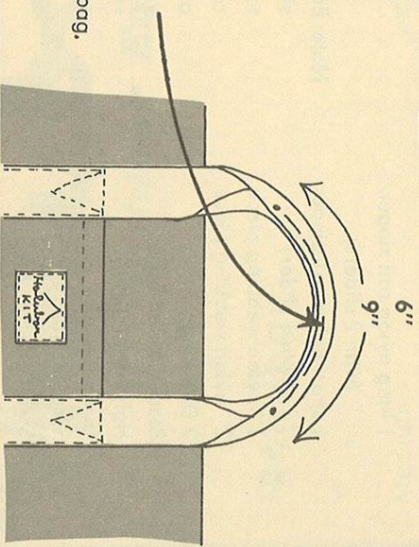

- d. Turn pocket, uncoated side out. With end circle on top, stitch $3/8"$ in from previous stitching.

- e. With coated sides together, stitch pocket to end circle of bag with zipper. Stitch over previous cording stitching.

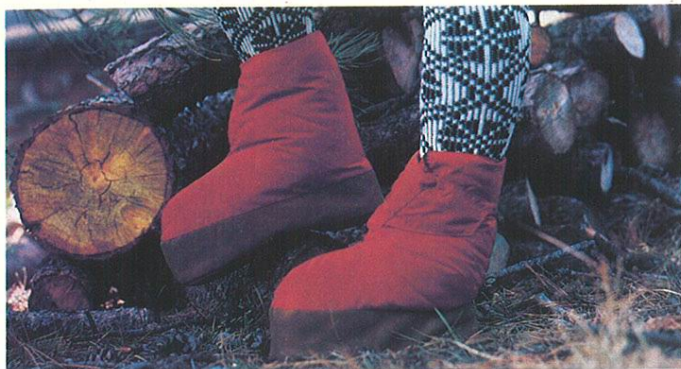

- f. Turn bag finished side out. At center of both handles, fold webbing in thirds lengthwise and stitch $1/8"$ in from edge for 6" on the Medium and for 9" on the Large.

You have completed your Roadbag.

ACCESSORIES

HEAVY DUTY BOOTIES Save over 40% on the Heavy Duty Booties Sew-It-Yourself Kit. Heavy Duty Booties are ideal for around camp, in your tent or sleeping bag, and even around the house. Comfortable, felt-padded soles extend up around the sides for warmth and extra wear. Upper fabric is dense, durable Supernyl, insulated with Goose Down for greatest possible foot comfort and warmth. Ankle girth adjusts perfectly to your leg with a VELCRO® tab. A wonderful gift. COLORS: Navy or Copper. SIZES: XS(4-5½); S(6-7½); M(8-9½); L(10-11½); XL(12-13½).

#0174: Handcrafted by Holubar (14 oz.) \$29.50
#1168: Sew-It-Yourself Kit (1 lb.) \$17.50

ASPEN SLIPPERS Save over 25% by sewing the Aspen Slippers yourself. Start and end your day with the soft, comfortable slip-on warmth of Goose Down. The Aspen Slipper is ideal for wear around the house, especially when your thermostat is set low, or in your tent, sleeping bag or easily squeezed into your luggage when traveling.

Slipper material is a durable Supernyl with an elastic band inset around the ankle to give you a snug fit. A great gift idea for a family member or friend. COLORS: Burgundy, Navy, Copper, Royal Blue, Forest Green. SIZES: 6-12 (whole).

#0185: Handcrafted by Holubar (4 oz.) \$12.00
#1173: Sew-It-Yourself Kit (4 oz.) \$8.50

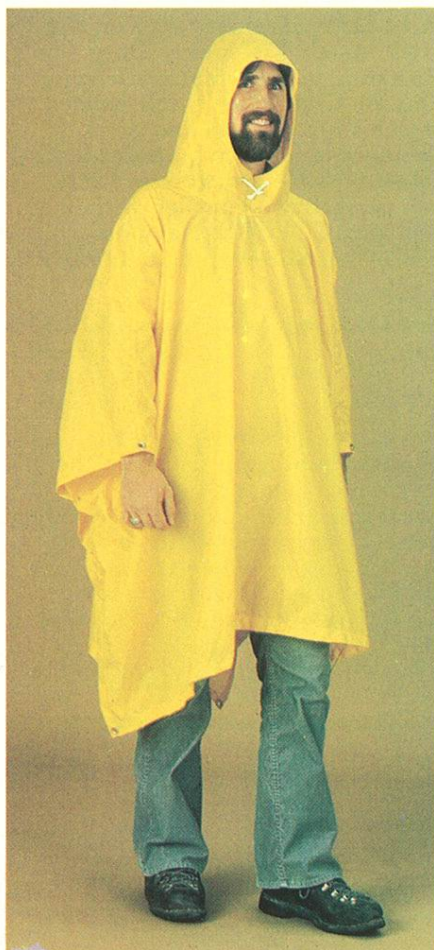

SKI MITTS Save over 25% by sewing it yourself.

These tough Supernyl water-repellent mittens with Goose Down filled hands and extra-long cuffs will keep your hands warm better than any other gloves we know. Their supple leather palms give you a flexible, firm grasp, yet stay soft in use. Nylon loops at cuffs may be fastened to your sleeves to prevent loss. Extremely durable, our mitts are highly recommended for skiing and all-purpose cold weather wear. COLORS: Navy, Copper, Forest Green. (Kit Colors: Navy, Forest Green). WOMEN'S: XS, S, M. MEN'S: S, M, L, XL.

#0172: Handcrafted by Holubar (8 oz.) \$22.50
#1169: Sew-It-Yourself Kit (9 oz.) \$16.50

For Comfort & Warmth

BACK PACK PONCHO

KIT This extra long poncho with off-center hood protects the hiker and his backpack. Extra flap snaps up out of the way when worn without the pack. **COLORS:** Yellow or Royal Blue. **SIZES:** Medium; front hemline 39", extended rear hemline 74", width 60". Large; front hemline 43", extended rear hemline 78", width 68".

*Note: Directions include procedures for tapering sides and shortening sleeves.

**Base of Collar to Bottom.

A. CHAMOIS CLOTH SHIRT KIT

Experience mellowing comfort the longer you wear this durable, chamois cloth shirt with a soft, moleskin nap. It's one of the few shirts that improves with age and you'll appreciate our using a heavy-duty 10 oz. chamois cloth to give you even longer wear. Shirt tails are cut long for wearing outside or "staying put" when worn inside. Instructions are included to alter and assemble the two front pockets in any of the 4 different styles. COLORS: Camel, Sky Blue, Rust. SIZES: XXS, XS, S, M, L, XL.

A. #1402: Sew-It-Yourself Kit (1 lb. 4 oz.) \$12.95

B. DENIM SHIRT KIT

A shirt for casual wear in the country, around town or campus in blue denim with distinctive bright orange double row stitching. A straight across yoke is a standard feature of this shirt kit and the 50% cotton, 50% polyester is a very durable fabric for outdoor action. All seams are finished to give you a finely tailored look . . . even on the inside. SIZES: XXS, XS, S, M, L, XL.

B. #1400: Sew-It-Yourself Kit (1 lb. 4 oz.) \$12.95

C. WESTERN WOOL SHIRT KIT

Add a scalloped yoke plus our pearl snap option (see below) to the basic wool shirt kit and you've got yourself a western look with all the comfort and weather protection of the natural fiber wool. SHIRT COLORS: Green or Red plaids, Tan tattersall. YOKE COLORS: Green or Red plaid, Tan tattersall. Green, Red, Tan solid. Specify both a shirt color and a yoke color when ordering. SIZES: XXS, XS, S, M, L, XL.

#1408: Sew-It-Yourself Kit (15 oz.) \$22.95

D. WESTERN CHAMOIS CLOTH SHIRT KIT

Add a western yoke to your standard chamois shirt and join the western styling trend in leisurewear. Choose either a traditional contrasting color yoke or a matching shirt color yoke for a subtle and classy look. You can also let your imagination run and substitute colorful prints or plaids (purchased in your local fabric store) for the yoke materials . . . that's the fun and enjoyment of sewing Holubar Kits. We also suggest you finish this shirt with pearl-like snaps which can be purchased separately along with a home snap setting tool. SHIRT COLORS: Camel, Sky Blue, Rust. YOKE COLORS: Camel, Sky Blue, Rust, Navy Blue. Please specify both a shirt color and a yoke color with ordering. SIZES: XXS, XS, S, M, L, XL.

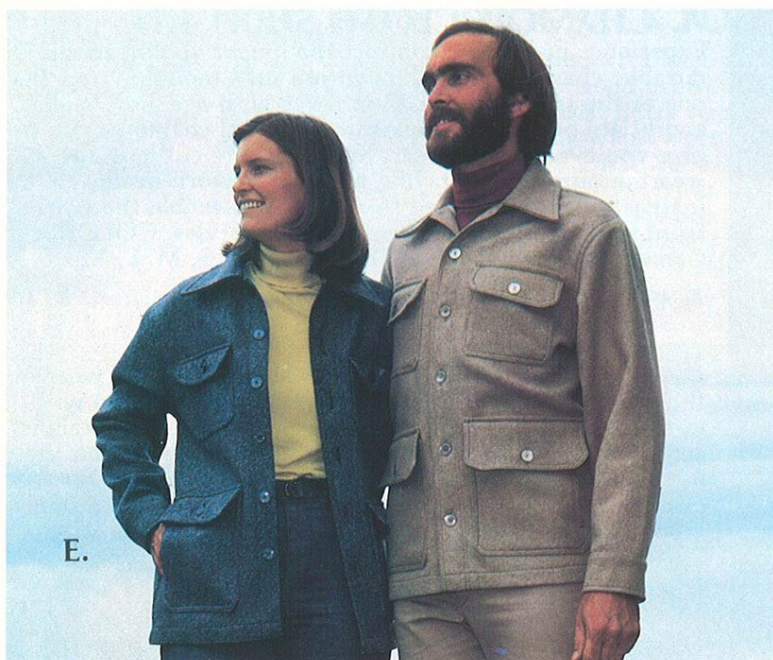

#1407: Sew-It-Yourself Kit (1 lb. 6 oz.) \$15.95

OPTIONAL PEARL-LIKE SNAP FRONTS. All shirts feature a button front but if you prefer snaps, which we recommend for the western styles, you may purchase pearl-like snaps and a home setting tool.

#1410: 15 Pearl-like snaps (2 oz.) \$1.50

#1411: Home snap setting tool (2 oz.)60

Looks, Comfort, Action

E.

E. WOOL SHIRT JAC KIT Combine the warmth, water-repellency and durability of the 100% Virgin Wool with comfortable shirt styling and you've got yourself one of the best foul weather garments around . . . not to say you can't also wear this handsome shirt jac when the weather is nice. Six pockets: two flapped, button down chest pockets; two slash handwarmer pockets under two flapped, button down cargo pockets, along with the full-cut jacket length gives you a very versatile garment for outdoor action.

The tailoring techniques are outstanding and we're confident that your completed garment will reflect one of the finest finished looks you've ever seen in a clothing kit. All seams are finished with raw edges bound with bias tape to eliminate unsightly bulk and prevent unraveling . . . a technique used only on finer quality garments. COLORS: Camel and Gray. SIZES: XXS, XS, S, M, L, XL.

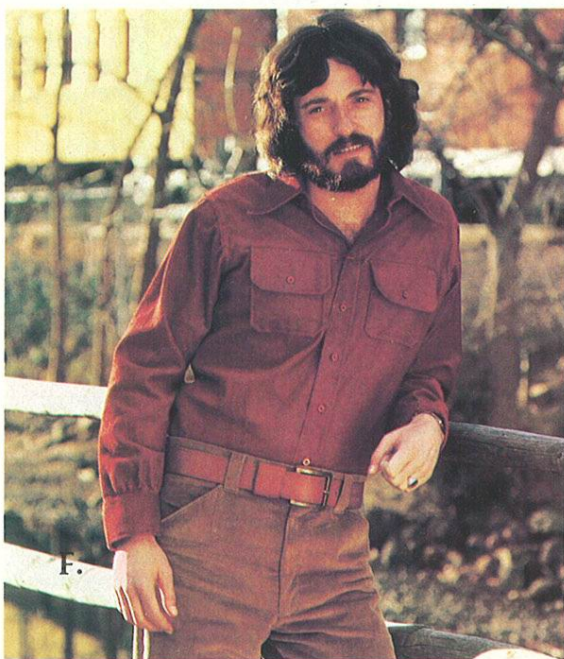

#1409: Sew-It-Yourself Kit (2 lbs.) \$27.95

G.

G. WOOL SHIRT KIT Dress shirt styling in handsome, classical plaids with the amazing comfort, warmth and long lasting wear of the natural fiber wool. Our plaid wool fabric contains 85% wool and 15% nylon which adds extra strength and wear. Features include placket button front, two button down, flap pockets, long tails and lined collar . . . all finished seams for a fine tailored look. COLORS: Green & Red plaid; Tan Tattersall. SIZES: XXS, XS, S, M, L, XL.

#1403: Sew-It-Yourself Kit \$19.95

LUGGAGE

The TRAVELITE's nylon carry-straps adjust into backpack shoulder straps for hiking.

TRAVELITE PACK Save over 35% by sewing your own. Carry along on the plane, tote your tennis gear, or hike into the cool high country with this versatile piece of luggage made from durable, 11.5 oz. waterproof CORDURA nylon. The roomy 8" x 14" x 18" bag compartment features a perimeter zipper for easy packing. The zipper is covered by a weatherproof flap for protection against rain or snow in the kit model only.

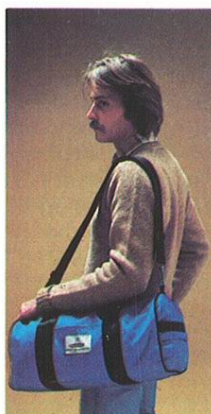

The comfortable nylon luggage carry-straps adjust into backpack shoulder straps for hiking or simply free your hands to carry other luggage or gear. In the backpack position, your back is protected from contents by an inner lining of stiff foam . . . removable to give you an additional inside envelope pocket. An outside pocket will hold maps, papers, plane tickets, etc. **COLORS:** Orange, Blue, Forest Green or Desert Sand.

#0700: Handcrafted by Holubar (1 lb. 6 oz.) \$24.95
#1784: (1 lb. 6 oz.) \$15.50

STUFFEL BAG SHOULDER STRAP

Converts the STUFFEL BAG to a shoulder bag.

#0703: (4 oz.) \$3.00

"Thank you for making an easy to construct, inexpensive kit."

Pat Eberhardt, Wisconsin

STUFFEL BAG You can save over 45% when sewing your own. Rugged all purpose bags are handy utility bags for any type of travel. Available in two sizes: medium 9" diameter x 18" long, and large, 13" in diameter x 26" long. Made of heavy-duty 11.5 CORDURA, a waterproof nylon oxford fabric which wears well and can be laundered or dry-cleaned. Each size features a main compartment, an outer end-entry compartment, an outer "slip-in" between the main handles. The zippered, end-entry compartment is separated from the main compartment by a weatherproof, coated NYLPORT pocket and makes a good storage space for wet swim suits, towels or dirty clothes. The main compartment closes with a #5 YKK ZIPLON zipper on the kit model, a #10 zipper on the handcrafted model (medium - 16" long and large - 24" long) with "holding tabs" for ease in opening and closing. The straps and handles are 2" wide nylon webbing, attached to the bag with reinforced stitching. Across one end is a second, handy "grab" handle. Stores flat when empty. **COLORS:** Blue, Forest Green, Desert Sand or Orange.

Medium (1 lb. 2 oz.) \$11.00
#1776: Sew-It-Yourself Kit
Large (1 lb. 8'oz.) \$15.50

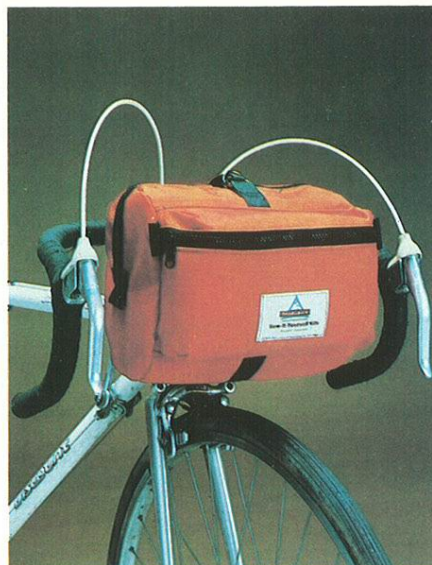

Handy Carriers

TAG-A-LONG Save over 35% by doing your own sewing. The "go anywhere" "catch all" bag that has a hundred different uses. For Mom, Dad, school, travel — for purse, diapers, school books, business papers. Tag-A-Long can tag along with everyone!

The Holubar Kit components are made of 11.5 oz. CORDURA, a heavy-duty waterproof nylon oxford fabric, a tough YKK coil zipper, and nickel plated metal slides for the adjustable length carry strap. All parts and step-by-step directions with illustrations are included. A Tag-A-Long is very easily assembled by even the novice sewer. COLORS: Blue, Forest Green, Orange, or Desert Sand. SIZES: Medium (12" x 12" x 4½"); Large (15" W x 13" H x 6" D).

- #0721: Handcrafted by Holubar. Medium (10 oz.) \$13.95
- #1777: Sew-It-Yourself Kit. Medium (10 oz.) \$8.50
- #0722: Handcrafted by Holubar. Large (13 oz.) \$14.95
- #1778: Sew-It-Yourself Kit. Large (13 oz.) \$9.50

BIKE BAG Save 30% by sewing your own. This two compartment pack is designed specifically for use with any full sized bike. VELCRO® attachments snap quickly and easily around any handle bars and front frame, and allow easy access through top lid while attached securely to the bike. When you park simply "flick" open the VELCRO® tabs, remove the complete pack from the bike, and carry the Bike Bag with you via the hand grip at the top. The hand grip with D-ring allows you to haul bulging loads with the zipper open — just cinch the load down. Main compartment is 9" wide x 7" high x 5" deep and the outside pocket is 9" wide x 5" high x 2½" deep.

Waterproof heavy duty 11.5 oz. CORDURA nylon, VELCRO®, all thread and straps, plus easy to assemble directions come with the Bike Bag Kit. Very easy to complete in a couple of hours. COLORS: Blue, Forest Green, Desert Sand or Orange.

- #0724: Handcrafted by Holubar (7 oz.) \$12.50
- #1779: Sew-It-Yourself Kit (7 oz.) \$8.50

COAT TOTE

Save 30% when sewing yourself.

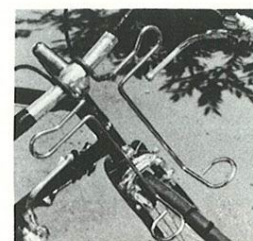

Easy to pack and keep your suits or garments neat and pressed for immediate use at

your destination. Made of heavy-duty 11.5 oz. CORDURA oxford nylon . . . rugged enough to take the wear and tear of traveling!

One length is designed for suits, dresses, shirts and most outer garments. Three inches wide, four-suit volume. The durable front zipper provides a 40 inch opening for easy access to the top or bottom of the bag. Bottom nylon web loop can be used to fold the bag and carry like a suitcase. Special seam construction eliminates all raw edges, giving your garments maximum snag-free protection and a decorative rolled outer edge.

This kit is complete with all the pre-cut materials, including thread and easy to follow, step-by-step directions. (Hangers not included). COLOR: blue or Desert Sand. SIZE: 24¼" W x 45" L x 3" D.

- #0723: Handcrafted by Holubar (1 lb. 5 oz.) \$21.00
- #1780: Sew-It-Yourself Kit (1 lb. 5 oz.) \$14.50

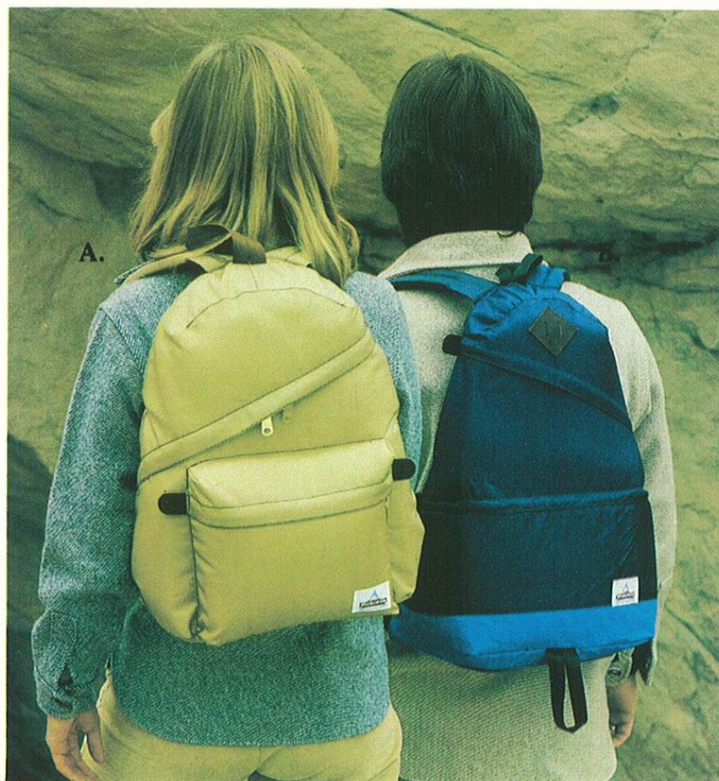

BIKE BAG FRONT SUPPORT

It will not interfere with brake cables. Supports all sizes of touring bags. Chrome plated, vinyl coated at contact points with handlebars. One size.

- #7456: (14 oz.) \$6.75

PACKS

For Books Or Gear

(Handcrafted by Holubar Models Shown)

A. RAMBLER DAY PACK Save 50% on the Rambler Sew-It-Yourself Kit. An ideal pack for a short hike, school books or bicycling. Snugs close to the body to allow maximum freedom of movement and will not flop around.

The main compartment features a wide slant zipper (#5 YKK COILON) for easy insertion of notebooks or school books, and offers 900 cu. in. of volume (5" x 12" bottom x 17" high). A smaller outer pocket with zipper entrance provides an additional 284 cu. in. of storage space. Both zippers are covered. The pack fabric is a heavy-duty, Urethane coated nylon. COLORS: Navy or Desert Sand.

#0726: Handcrafted by Holubar (13 oz.) \$16.50
#1785: Sew-It-Yourself Kit (13 oz.) \$8.50

B. VOYAGEUR PACK Save over 45% on the Voyageur Sew-It-Yourself Kit. A rugged built pack that will give you the protection against the normal scuffing action encountered when climbing or backpacking. The upper compartment features a slanted zipper (#5 YKK COILON) entrance and both compartment zippers are covered. The pack fabric is a heavy-duty 8 oz. Urethane coated nylon duck with a second layer of 11 oz. Cordura nylon fabric covering the bottom plus extending up the sides for added durability.

Top compartment volume: 284 cu. in. Lower compartment volume: 450 cu. in. COLORS: Navy with Sky bottom; Desert Sand with Coca bottom. SIZE: 7" x 12" bottom x 18" height.

#0727: Handcrafted by Holubar (1 lb. 4 oz.) \$23.50
#1786: Sew-It-Yourself Kit (1 lb. 4 oz.) \$12.00

SLEEPING BAGS

TRIMLITE Save up to \$40 on Holubar's Trimlite Sew-It-Yourself Kit. You'll enjoy making your own backpacking equipment. The Trimlite kit has all the features and components of our Handcrafted bag. The only difference is that you sew it yourself and save. Kit includes everything you need — materials, our exclusive Goose Down PACKETTES*, accessories, even thread, and, of course, easy-to-follow instructions. *U.S. Patent No. Re 29,059. Minimum Temperature: 15°F. Loft: 6".

An ideal sleeping bag for the weight conscious backpacker, bicycle tourer, or climber. We've trimmed down your packing weight and size without taking away construction features or skimping on the Goose Down fill. You'll find 23 ounces of Goose Down in our 6' length and 26 ounces in our 6'6" length . . . more insulation than most bags in this design category . . . yet the total weight is only 42 ounces and 48 ounces respectively! The Trimlite's 6 inches of loft provides more than adequate warmth for three season use in Colorado high country and you can expect four season use in the Southwest and similar warm climates. Note the following construction features of the Trimlite, most of which are also common to our cold weather sleeping bags and produced

with the same handcrafted quality found in those more expensive models. COLOR: Royal Blue with Tan inner lining. (Kit is Royal Blue with Royal Blue lining).

TRIMLITE's traditional features include:

- Durable 1.5 oz. ripstop nylon inner and outer shells are downproof and treated with a ZEPPEL® water repellent finish.
- Parallelogram Goose Down channel system formed from 1.1 oz. ripstop nylon to give you added internal strength and bag life.
- Each Goose Down channel is blocked on the side opposite the zipper to prevent Goose down shifting from one layer to the other.
- The shoulder girth and hood can be closed around the sleeper's head by a drawstring to help retain body heat and shut out drafts.
- The full-length (70") #5 YKK VISLON zipper can be unzipped from the bottom for ventilation and is insulated by a plump, full length Goose Down filled tube.
- Opposite opening TRIMLITES of either length can be zipped together to form a roomy, double bag.

- Goose Down insulation with a minimum fill weight of 550 cubic inches per ounce and tested to meet FTC regulations for proper goose down content. Upper layer contains 60% of the fill for optimum insulation efficiency.
- Includes a 6" x 13" weatherproof stuff sack.
- Handcrafted by Holubar model includes a roomy 22" x 33" oxford nylon storage sack which allows the Goose Down to loft while you store for long periods of time.

Of Meticulous Construction

TIMBERLINE Save up to \$49 on Holubar's Timberline Sew-It-Yourself Kit. Minimum temperature: 0°F. Loft: 8". You'll get a lot of self-satisfaction out of making your own backpacking equipment with our kit version of the Timberline which offers all the features of the Holubar Handcrafted model. Included are easy instructions, pre-cut components, even thread and Holubar's unique, no mess Goose Down PACKETTE* filling system. *U.S. Patent No. RE 29,059.

Twenty years on the market is a pretty good test of quality, performance, and value and our Timberline continues to be a favorite choice for backpackers, campers, and outdoorsmen. You'll find excellent value with generous Goose Down fill weights that exceed many bags priced higher and rated to lower temperatures. For example, our popular 6'2" length has 39 ounces of Goose Down.

Holubar's meticulous construction details will give you a bag built to last many, many years. Protective warmth and comfort for year around use is achieved through a balance of features such as our hood and shoulder drawstring system that allows you to "snug up" in cold temperatures to gain the full benefit of the Goose Down insulation. In warmer temperatures, just leave the hood down, unzip the

bag from the foot end for ventilation and experience the natural ability of Goose Down to wick away your body moisture for cooling comfort. COLOR: Burgundy with Tan inner lining.

9 Great Features of the Holubar Timberline:

- A durable, flame retardant (FR) outer shell of 1.9 oz. ripstop nylon.
- A strong framework of long wearing 1.9 oz. ripstop nylon outer and inner shells, downproof and treated with a durable ZEPEL® water-repellent finish.
- A parallelogram Goose Down channel system formed from 1.1 oz. ripstop nylon, hot cut to prevent edges from raveling and sewn to the framework with sturdy rolled seams.
- Each Goose Down channel is blocked on the side opposite the zipper to prevent Goose Down shifting from one layer to the other.
- Goose Down insulation with a minimum fill weight of 550 cubic inches per ounce and tested to meet FTC regulations for proper goose down content. Upper layer contains 60% of the fill for optimum insulation efficiency.

- A 70" #10 YKK VISLON zipper with a two-way slider to allow unzipping from the foot end for ventilation. Insulated by a plump, full-length Goose Down filled tube.
- Opposite opening TIMBERLINES, ROYALIGHTS, ROYALIGHT II's of any length will zip together for a roomy, double bag.
- Includes a 10" x 18" weatherproof stuff sack.
- Handcrafted by Holubar model includes a roomy 22" x 33" oxford nylon sack that permits your bag to loft during long storage periods.

Z-Z-Z-Z-Z

ROYALIGHT Save up to \$50 on Holubar's Royalight Sew-It-Yourself Kit! Minimum temperature: -20°F. Loft: 10". There's special personal satisfaction and savings in making your own backpacking equipment. Our kit version of the Royalight offers all the features of the Handcrafted by Holubar model. Includes easy-to-follow instructions, all pre-cut components, (even thread) and Holubar's unique, no mess Goose Down PACKETTE* filling system. *U.S. Patent No. Re 29,059.

Compare features and price and you'll soon discover the obvious benefit of our generous Goose Down fill weights (a full 3 lbs. in our popular 6'2" length!) contained within the "V" baffle construction . . . a time-proven design that offers the best down control in cold weather conditions where maximum body heat retention is so important. Adding to this loft control is our original Holubar Channel Block, a baffle opposite the zipper which seals each "V" channel; to hold 60% of the Goose Down fill in the upper half of the bag at all times. In cold temperatures, a Holubar Foam Pad is a must for efficient heat retention on the underside of the bag where body weight compresses the Goose Down. When you need added warmth, simply snug down the shoulder girth and draw the hood completely around your head and face

to hold warm air in and shut cold air out. The YKK VISLON #10 zipper is insulated by a full-length plump down filled tube and can be unzipped from the foot end for ventilation.

The outer shell is a tough 1.5 oz. ripstop nylon with a 1.1 oz. ripstop nylon internal baffle system sewn to the outer shell with sturdy rolled seams.

Each Royalight comes with a #7 (9 1/4" x 18") weatherproof stuff sack. The Handcrafted by Holubar model includes a roomy 22" x 33" oxford nylon sack that permits your bag to loft during long storage periods. COLOR: Copper with Tan inner lining. (See chart A).

GOOSE DOWN COLLAR

Save 45% by sewing it yourself. The Goose Down Collar is designed for cold weather use to eliminate heat robbing drafts. The collar is made of ripstop nylon and contains 3½ oz. of Goose Down. Adjusted independently of the sleeping bag's shoulder and hood adjustment with its own drawstring. A strip of VELCRO® on the zipper side allows easy entry and exit. The Goose Down Collar is an essential winterizing accessory for your sleeping bag, increasing the heat retention efficiency of your bag. The Goose Down Collar, Handcrafted by Holubar is available only for Holubar bags; whereas, the Sew-It-Yourself Kit model will fit any bag 50" - 70" in shoulder girth. COLOR: Tan.

Stuff Sack Weight	3 oz.
Rolled Tent Size	10" x 22"
Total Tent Weight (w/Stakes)	10 lbs. 4 oz.

CHATEAU TENT Save up to \$70.00 on the Chateau Sew-It-Yourself Kit. Our Big and Roomy 3 Person Tent. The Chateau has excellent ventilation with a tunnel vent at the front arch backed by mosquito netting and two large window vents (7" x 57" each) on each side of the breathable nylon fabric canopy. All tent and rainfly fabrics are Flame Retardant (FR) treated.

The floor fabric is a durable 2.7 oz. URETHANE coated nylon that extends up the sides to give you a sidewall of 8" in the rear to 23" at the front entrance. Immediately inside the front door you'll find a double-layer floor section to provide added strength

and durability for the entry way. The front weatherproof door opens with one zipper down the side and one zipper across the bottom, both smooth running, #5 YKK VISLON type zippers. Across the entrance is a 6" high varmint proof sill. The mosquito netting door zips like the front door (varmint proof) and ties aside when open. The catenary cut canopy is breathable, 1.9 oz. ripstop nylon and the rainfly is a Polymer coated (TEMPER KOTE) 1.7 oz. ripstop nylon which extends beyond the perimeter of the tent for good rain protection.

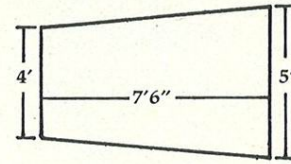

The tent pitches with four stakes in normal use but two additional tie-

outs and front and rear guy line loops are available for added stability in high wind conditions. When fully guyed, the CHATEAU HAS PROVEN TO BE VERY STABLE IN HIGH WINDS. A total of 14 stakes are included with the tent. The sectioned tent poles (with internal shock cord) are high strength aircraft aluminum tubing, including the two piece front and rear arches which couple to the main tent poles. COLORS: Blue Canopy/Brown Floor & Sidewalls, Beige Rainfly.

- #0651: Handcrafted by Holubar (Tent Rainfly, Poles, Stakes) **\$215.95**
 #1752: Sew-It-Yourself Kit (Tent, Rainfly, Poles, Stakes) **\$135.00**

"I liked the way your down was so easy to put in my vest. By following your instructions, the packette dissolved right out when I washed it." Kevin Nickerson, Massachusetts

Lightweight, Rugged Protection

Hut Front Peak Height 54"
Hut Rear Peak Height 30"

HUT TENT KIT A 2 Person Tent in Sew-It-Yourself Kit Form!

The Hut is a functional tent. In it we have combined sophisticated design, materials and expedition experience to meet the demands of both the serious mountaineer and the week-end backpacker. Ultimate lightweight and protection.

The canopy is 1.9 oz. ripstop nylon, a lightweight fabric that can withstand the continual wear of severe weather, hauling and storage. Floor and side walls are cut from 2.7

oz. Urethane coated NYLPORT. The waterproof protection of the floor piece continues for 12 inches up the sides all around the Hut. This sidewall design — 12" vertical walls, and front peak "A" style poles — allows for full use of the floor area. Zippers close the triangular front door and mosquito netting just inside the front entrance. A large hooded insect-tight vent allows flow-through ventilation from the rear of the Hut.

Aluminum poles are included in the kit and are complete with shock

cord to keep the segments together. All guy lines and aluminum stakes (14) are included. Tent and poles roll into a 6" x 21" waterproof nylon stuff sack which is also included (in kit form). COLOR: Blue Canopy/Avocado Floor, Forest Green Rainfly.

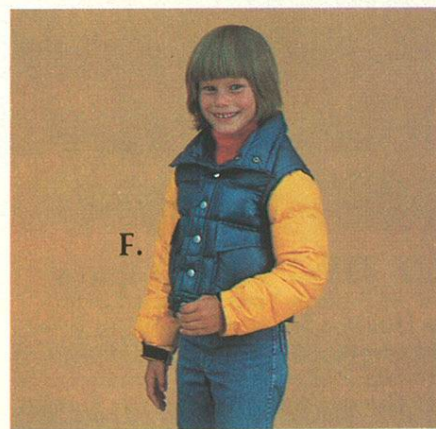

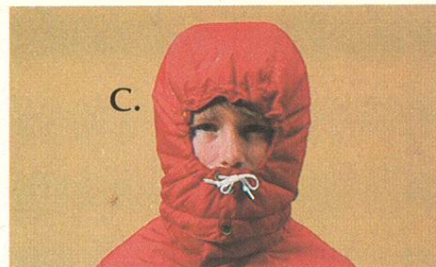

The HUT KIT rainfly is 1.7 oz. FLAME RETARDANT Polymer coated (TEMPER KOTE) ripstop nylon.

#1750: Complete with rainfly, poles, stakes, Sew-It-Yourself Kit (7 lbs. 4 oz.) \$99.50

JUNIORS

Mini-Gems
